FUN ACTIVITIES TO DO WITH YOUR CHILD

- Use junk mail for cutting and gluing to make pictures.
- Use pudding, shaving cream or even mud to practice writing letters.
- Practice writing letters and numbers with chalk on the sidewalk.
- Cook with your child. Let them stir ingredients with a spoon. Have them count the ingredients.
- Use bubble wrap from packaging and let your child use their scissors to cut and pop the bubbles.
- Play ABC or number scavenger hunts. Have your child find letters or numbers around your home.
- Cut the front part of a cereal box into 5-10 pieces making a puzzle for your child. Have your child put it back together.
- Take an old sock to make a puppet. Have your child use a magic marker to draw eyes, mouth, ears, and hair.
- Use plastic cups to build a tower. As your child builds, count the number of cups used.
- Play Simon says. Have your child point to the different body parts.
- Give your child a number and have them jump that many times.
- Use ice cubes, have your child paint letters, numbers, or shapes on the sidewalk.
- Sort items from around the room based on size, color and shape.
- Play hide and seek. Have your child count to 20 while waiting to look for the person.
- While your child washes their hands, have them sing the alphabet song.
